

Campus Partners
Separation Date Management Service Authorization Form

The *Separation Date Management Service* is a service that complements the file submissions to the National Student Clearinghouse (NSC). In addition to providing the NSC with borrowers in a grace and repayment status, Campus Partners also includes borrowers coded as enrolled on the Campus Partners system. Campus Partners then receives information back from the NSC that indicates whether or not the borrower is still enrolled at your institution. A Campus Partners analyst will review the accounts and update the separation dates of the University's enrolled borrower population. This service is especially helpful for those schools needing assistance in monitoring borrower separation dates on the Campus Partners system. Instead of manually working paper reports or creating electronic interfaces, Campus Partners will receive data directly from the NSC that was submitted by the University's registrar.

If interested in this service, please complete the information below:

Name of Institution: _____

Authorized Individual: _____

Title: _____

Phone: _____

Signature: _____

Date: _____

Please return this authorization form to:
